Enjoy Surfing the New SOM/DTOS and Embedded Software Solutions Websites

"No more jargon. I'll give you five minutes to tell me exactly what SOM and DTOS are all about."

Got a problem if your customer approaches you like that? The best solution now is to turn on your notebook and connect to the new Advantech SOM/DTOS website. Let your customer experience the [Online Presentation](#) program with only a few clicks.

Show me now!

In the meantime, you may prepare yourself for the coming questions regarding the product or customization service. The detailed product information is easy to get and download from the [Solutions](#) section on the DTOS web. There is no need to bring the printed data sheets or catalogs with you. If your customer would like to learn more about how to proceed with our **30-Day Design to Order Service™**, you can

guide him through the [Project Login](#) section step by step and get a clear picture of the procedures for launching and completing a project.

Embedded Software Solution Ready to Serve

What if the customer is also looking for an embedded OS solution to go with his custom board? What kinds of solutions and services does Advantech now provide? How do you get an evaluation kit? How does Advantech handle the embedded OS integration? What are Advantech's strengths and expertise in this field?

Oops, maybe you are not ready for this yet. If not, what would you have done in the past? Tell your customer that you don't have the information ready on hand, so you will get back to him? It's the Internet age, so everything you need is available on the web now. Evaluation, development and integration services, project flow management, and training information are all included.

Why not try it now?

All comments and inputs are most welcome. Contact: ess@advantech.com

Product Update

PCA-6154 Revision

The PCA-6154 will get a new Realtek LAN controller chip, and a new clock generator.

PCA-6154		
	old	new
LAN controller	Realtek RTL8139B	Realtek RTL8139C
clock generator	Cypress CYTC2265	ICS 9248

Please note: Due to certain intrinsic limitations of the SiS 5598 chipset, for best performance of the PCA-6154, **paired** SIMM modules are recommended.

Ordering Information

PCA-6154 Rev. A3 will remain available while supplies last.

PCA-6154 Rev. A4 will be available in two models, as follows:

PCA-6154-00A4 Half-size Pentium CPU card with VGA, Ethernet and SSD

PCA-6154L-00A4 Half-size Pentium CPU card with VGA and SSD

Contact Information

For more information on this product revision or any other CPU card products, contact your nearest Advantech representative or e-mail us at epc@advantech.com.tw today.
